

# These r the forgotten and unused google pages which you probably never knew existed!!!

## Google's 56 forgotten (secret) pages

October 09th, 2006 -

Again, some of these pages are indeed still public, but either have not been seen by many people, have been missed or are just very hard to find. The rest are just NOT public anymore and can be found either by searching the search engines for keywords, or by consulting the sitemap.xml and the robots.txt files:

1. [Holiday Certificate: Enjoy the gift of Google \(local mirror\)](#).
2. [Enable Cookies help page](#).
3. [Google and Dilbert Doodle](#) created by cartoonist [Scott Adams](#) for [Google's Holiday Logos](#) .
4. [About Dennis Hwang \(Hwang Jung-moak\)](#) - the designer of almost all of Google's doodles. He's a 28 years old Korean artist.
5. [Google Grants](#) returns the 404. I guess Google's tired to give money for free, or someone made a bubu. Also look at these Google Grants PDF documents from 2004 : [Account Basics \(local mirror\)](#), [Keywords \(local mirror\)](#), [Ads \(local mirror\)](#), [Extra Help \(local mirror\)](#).
6. [Why we sell advertising, not search results](#).
7. [Google Fan Logos](#) - great collection of Google logos, made by fans all around the world. I don't think this page is public.
8. [Google's code of conduct](#) - *Our informal corporate motto is "Don't be evil"* .
9. [Google's financial data](#) where we learn that they actually made a dedicated row for "Settlement of dispute with Yahoo" for the [2004 Google - Yahoo dispute](#). Funny thing is that the WSJ reports a figure of \$328 million and Google reports a figure of \$201 million (which represented about 6% of all of Google's 2004 income).
10. [Google Press Blog](#) -YES, very few knew about it, I know. It even has a feed, so you can be up to date. None of the [regular Google Blogs](#) link to it anyway.
11. [Google Milestones](#) - A history of Google's achievements.
12. [Trademark Complaint Procedures](#) - If you have concerns about the use of your trademark in their advertiser's ads or in a parked domain name.
13. Some older pages on a [Google Tour](#) and [Building a better query](#)
14. [The 2004 version of Google Labs: Why should you work at Google](#) versus the [2006 \(current\) one](#).
15. [Explanation](#) - Google's explanation of their *very disturbing* search results when searching for "Jew" (2004).
16. Google Store, [Americas](#) and [Worldwide](#) - Buy stuff branded with Google, like a [Google beach towel](#) or a [White Google Polo Shirt](#) for your wife. And yes, the Google stores are developed using Microsoft Technology (ASP).
17. [Google Gulp](#) - They are pleased to announce Google Gulp (BETA)<sup>™</sup> with Auto-Drink<sup>™</sup> (LIMITED RELEASE), a line of "smart drinks" designed to maximize your surfing efficiency by making you more intelligent, and less thirsty.
18. [2000 Google Easter Animation](#) - Catch the eggs in order to spell "Google" (if you complete the game twice, there's a surprise). Very funny and UGLY :)
19. [Some 100 Euro Adwords coupon for Google.de](#) - Wrote in german.
20. [10 Tips for Enterprise Search](#) - A best practices tip sheet ( [local mirror](#)).
21. [10 things about Google's Philosophy](#).
22. [Google's fight spyware information page](#) - In the footer, they recommend some anti-spyware programs.

23. [Google Alert #1](#): June 26, 2000, Google Launches World's Largest Search Engine (is that right ? ;) )
24. [20 Year Usenet Timeline](#) - "Google has fully integrated the past 20 years of Usenet archives into Google Groups, which now offers access to more than 800 million messages dating back to 1981. This is by far the most complete collection of Usenet articles ever assembled and a fascinating first-hand historical account."
25. [How to create a successful Google Grants campaign](#).
26. [Bouncing Heart Applet](#) - See the [2000](#) and [2001](#) credits.
27. [Google Cheatsheet](#). FYI, did you know that "*~auto loan*" will allow auto to match car, truck, etc ?. Here's an extended [Cheat Sheet](#) from [GoogleGuide](#) and another [PDF Cheat Sheet for print](#).
28. [Google Jobs Internship Opportunities](#) - They're looking for students pursuing degrees in computer science (or closely related areas), who love to problem-solve, code, and design.
29. [Google Jobs: Top 10 Reasons to Work at Google](#). I especially like #7 :

7. Good company everywhere you look. Googlers range from former neurosurgeons, CEOs, and U.S. puzzle champions to alligator wrestlers and former-Marines. No matter what their backgrounds Googlers make for interesting cube mates.

I mean, who the heck at Google is an alligator wrestler ?

30. [Video: An Inside Look at Google](#).
31. [Some funky up Google Logo](#), live on Google's servers, from (insert unknown year and occasion here):

32. 2001 Google Search Guide PDFs - [Front](#) ([local mirror](#)) and [back](#) ([local mirror](#)). From the content:

#### DIRECTORIES VS. SEARCH ENGINES

If you have a general idea of the subject in which you're interested, but are not sure exactly what you're looking for, **a directory is a great place to start**. Directories like Yahoo! use human editors to organize information in broad categories, such as finance, sports, or travel. Think of them as giant card catalogs.

33. [10 Google fun facts](#):

Googlers are multifaceted. One operations manager, who keeps the Google network in good health is a former neurosurgeon. One software engineer is a former rocket scientist. And the company's chef formerly prepared meals for members of The Grateful Dead and funkmeister George Clinton.

34. [Google Timelines from 2001](#) (mentioned in the [previous article](#) too) and [from 2002](#).
35. [Google Zeitgeist Special Edition - Election 2004](#) - A bit of insight into people's 2004 campaign interests.
36. Hi resolution TIF images (zip archived) with Google Executives like [Larry Page](#), [Sergey Brin](#), [Larry AND Sergey](#), [Eric Schmidt](#), [Cindy Mccaffrey](#), [Craig Silverstein](#), [David Drummund](#),

[George Reyes](#), [Jonathan Rosenberg](#), [Omid Kordestani](#) and others. Here is the full list of zip archives:

[http://www.google.com/press/images/alan\\_eustace.zip](http://www.google.com/press/images/alan_eustace.zip)

37. [Zeitgeist Archive](#) from 2001 to the present day, including searches done for [CNN](#) or [World Trade Center](#), [Pentagon](#), [Nostradamus](#) or [Bin La Den](#) on Sep. 11. Other [Search Statistics Related to September 11, 2001](#).
38. [Corporate Information: Google Offices around the world](#) featuring phones and addresses for each office, including [driving directions](#) - Page not public anymore.
39. [Google Content-Targeted Advertising](#) - The ancestor of AdSense. From the page:

#### How do you get started?

It's easy. If you're a web publisher who sells advertising inventory, and your site receives more than 20 million page views a month, you may be a great fit for Google's content-targeted ads.

20 Million ? Really ? :)

40. [Premium Service for AdSense PDF \( local mirror\)](#) - A 2003 PDF presentation of the Google AdSense Premium service. See the [HTML version](#).
41. A 2004 [AdSense Tax PDF \( local mirror\)](#). Look, we have a fax and a telephone number in the header :)
42. [Google AdSense Charity Ad Formats](#) proposals and feedback requests. Amongst the questions asked by Google in this particular feedback page:
  1. What is your overall feedback about the proposed changes?
  2. The Public Service Announcements are no longer Google branded. What is your feedback about this specific change?
43. The results [was this page](#). They were named PSA too (from *charity ads*).

44. [Google AdSense Charity ad formats](#) example (when there were only 6 formats available). Funny thing (if you look in the source code) about these "charity" ads, is the PUB ID and the fact that all those ID's are live :

[http://pagead2.googlesyndication.com/pagead/adclick?sa=l&ai=A0tJUlyc8\\_UJ8Klrzt8u3QG8AK\\_NVUnqLRIABAEAAFm-AEQwYh1ycsF2coR2b091NygDe5ADaseYVAAAA3IDO4IDMfF2cAIA&num=4&adurl=http://www.unitedway.org/%3Fas\\_grant&client=ca-slashdot\\_728x90](http://pagead2.googlesyndication.com/pagead/adclick?sa=l&ai=A0tJUlyc8_UJ8Klrzt8u3QG8AK_NVUnqLRIABAEAAFm-AEQwYh1ycsF2coR2b091NygDe5ADaseYVAAAA3IDO4IDMfF2cAIA&num=4&adurl=http://www.unitedway.org/%3Fas_grant&client=ca-slashdot_728x90)

So [SlashDot](#) used Adsense in the past ? Or was it a charity website ? :)

45. A certain [Frankfurt Print Tour](#) by [Thomson Course Technology](#).  
46. A [cool 2004 Adsense Tour](#).  
47. [Google Gmail tour from 2005](#) - It's movie based. Great tour BTW.  
48. [2005 Gmail Program Policies Redline version](#) (???) - updated June 28, 2004.  
49. A page with [bloggers that wrote \(reviews\) about Gmail](#).  
50. [Gmail's Third Party Software Error page](#).  
51. [Bulk e-mail sending tips and information from Gmail](#).  
52. 3 Gmail XMLs : [spam-0](#), [trash-0](#) and [trash-1](#). Don't ask me what they are.  
53. [A Google Healthcare Powerpoint presentation](#) (zip) by Kevin Gough (Product Marketing Manager - Google Enterprise).  
54. [Google Mini Sweepstakes Rules](#).  
55. [A 2005 Google Search appliance flash presentation](#) .  
56. [Google Mini Administration Interface presentation](#) . I always wondered how the Admin interface for a Mini looks like :)
